

Churners

PROJECT PROPOSAL

Here is where our presentation begins

1

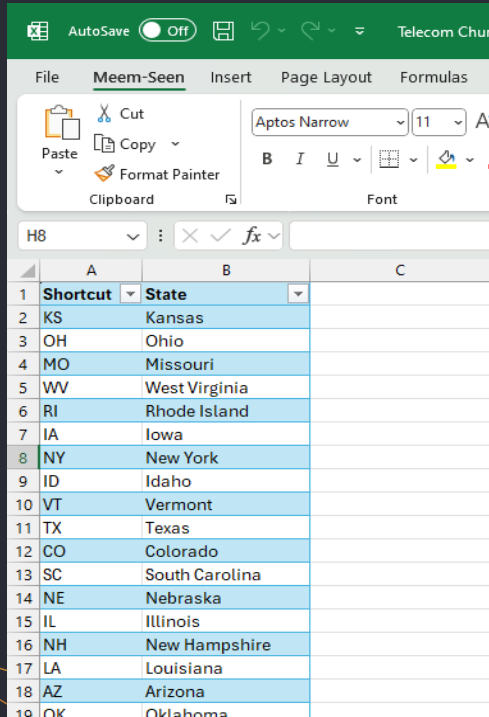

Data Profiling & Cleaning

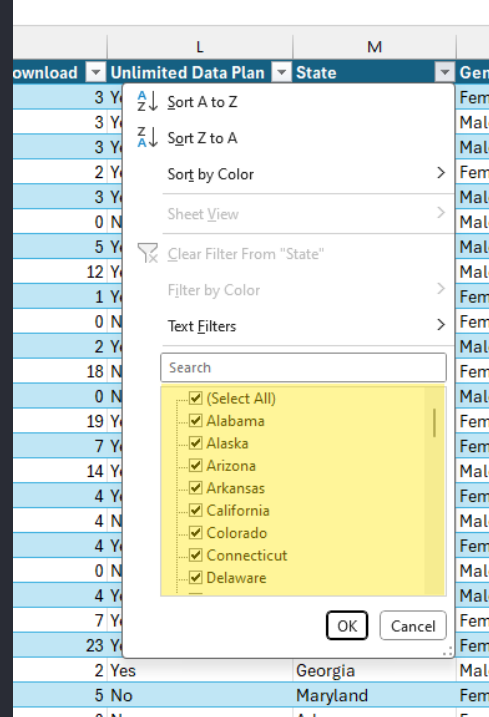

0] Project Objective

This project aims to analyze customer churn data from a telecom company to understand why customers leave. The company can take targeted actions to improve customer retention by identifying key factors influencing churn.

1] Change The State Names

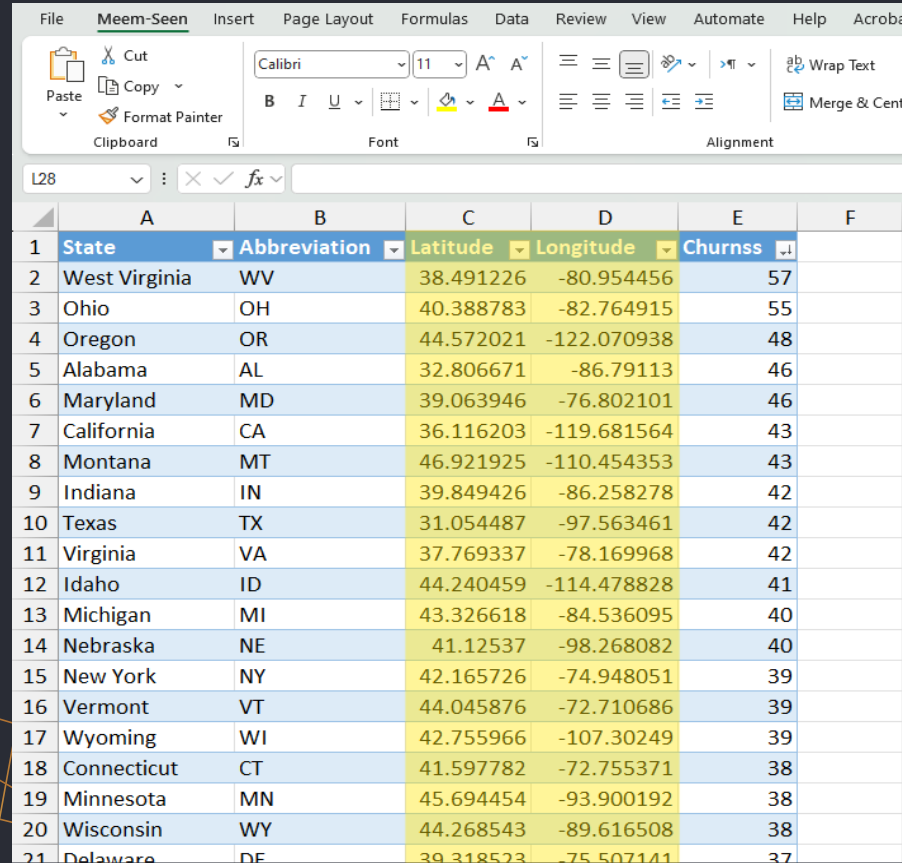

| | A | B | C |
|----|----------|----------------|---|
| 1 | Shortcut | State | |
| 2 | KS | Kansas | |
| 3 | OH | Ohio | |
| 4 | MO | Missouri | |
| 5 | WV | West Virginia | |
| 6 | RI | Rhode Island | |
| 7 | IA | Iowa | |
| 8 | NY | New York | |
| 9 | ID | Idaho | |
| 10 | VT | Vermont | |
| 11 | TX | Texas | |
| 12 | CO | Colorado | |
| 13 | SC | South Carolina | |
| 14 | NE | Nebraska | |
| 15 | IL | Illinois | |
| 16 | NH | New Hampshire | |
| 17 | LA | Louisiana | |
| 18 | AZ | Arizona | |
| 19 | OK | Oklahoma | |

| | L | M | |
|----------|---------------------|---------------------------|--------|
| download | Unlimited Data Plan | State | Gender |
| 3 | Yes | Sort A to Z | Female |

| NE | 33% |

Churners customer by contract type

The majority of customers who churn have a **month-to-month** contract

Month-to-Month churners by Churn category

This chart emphasizes the need to address competitive offers, improve customer satisfaction, and possibly review pricing strategies to reduce churn among Month-to-Month contract holders.

Churned Status by Contract type

This chart highlights the importance of long-term contracts in reducing customer churn.

Churned customer by account length

A significant number of churners at the very beginning (account length close to 0) indicates many customers churn **shortly after starting** their accounts.

As the account length increases, the number of churners decreases significantly.

Churned By Grouping

Grouping **Does affect** The Churning

Not Churned By Groping

significant majority (70.93%) of customers did not in group

To highlight areas for potential improvement in customer retention strategies.

Churners By Churn Category

the primary reason for customer churn is competitors, suggesting that the company needs to improve its competitive positioning.

Dissatisfaction and attitude-related issues are also notable reasons for churn, highlighting potential areas for service or customer experience improvement.

Churners By Unlimited Data Plan

PROJECT TAKEAWAYS

- Focus on High Churn States: Targeted Retention Programs: Implement targeted retention programs in states with high churn rates, such as West Virginia, Ohio, and Oregon. Localized Marketing: Tailor marketing campaigns and offers to address the specific needs and preferences of customers in these states.
- Address Churn Causes: Competitor Analysis: A significant number of customers churn due to competitors. Conduct a detailed competitor analysis to understand their offerings and identify gaps in your services. Enhance Value Proposition: Improve the value proposition of your services by adding features or bundling services to make your offerings more attractive. Customer Feedback: Regularly gather and analyze customer feedback to address dissatisfaction, attitude issues, and other reasons for churn

- ❑ **Optimize Contract Types:** Month-to-Month Contracts: Since a large number of customers are on month-to-month contracts, consider offering incentives to switch to longer-term contracts, which can improve customer retention. Loyalty Programs: Implement loyalty programs for customers with longer contract commitments to enhance satisfaction and reduce churn.
- ❑ **Improve Customer Service First Call Resolution:** Analyze the reasons behind multiple customer service calls and focus on resolving issues during the first call. Training and empowering customer service representatives with better tools and knowledge can help achieve this. Proactive Support: Implement proactive support measures like reaching out to customers who have called multiple times or those who might face common issues before they decide to churn.

- ❑ Age-Based Segmentation: Target Older Age Groups: Customers in the 40-60 age bins have a higher number of total customers but might also be at risk of churn. Develop age-specific retention strategies and personalized offers for these age groups. Engagement Initiatives: Create engagement initiatives for older customers, such as tutorials or workshops on using telecom services and features.

THANKS!
